

The Faculty and Staff of Crowley's Ridge College are some of the finest, hardworking Christian men and women that you will find anywhere. The commitment and dedication of employees serving since CRC opened in 1964 continues to this day! It is a joy to hear the excitement of CRC co-workers as they discuss how to reach a student spiritually and academically. What can they do to help students with their challenges in life? What student enrichment event can they host to help students feel more connected at CRC?

Our faculty and staff are doing a great job of working together, helping our students complete their bachelor degree at CRC. Faculty and staff also continue to further their education by receiving master's and doctorate degrees. Professional development is another area CRC has invested in for all employees. A variety of training modules are completed each year aimed at helping us to have greater success in serving our students both in and out of the classroom.

CRC could use some additional financial assistance as we invest more dollars in our faculty and staff. Having experienced higher education, credentialed, qualified teachers, and staff who are committed to Christ is critical to the missional success of Crowley's Ridge College. Providing them adequate salaries and benefits, helping pay the costs of receiving advanced degrees, and providing annual raises is most challenging.

Please help these dedicated servants by giving annual or planned gifts. Perhaps you want to discuss establishing an Endowment Fund to pay for the annual expenses of hiring and maintaining experienced higher education, credentialed faculty, and staff who are committed to Christ and love serving our students.
