

It is very important to the board of trustees and administration of Crowley's Ridge College to understand any area of interest that someone wishes to help support with a gift. If the area you would like to support is not listed in any of the previous summaries of our needs, please let us know. You may have an excellent idea for funding an area, program, project, or need that we have not thought about at this time.

You are welcome to use email President Richard Johnson at president@crc.edu to tell us about the area you would like to support at CRC.
